Overview of the FMR Consulting, Inc.

FMR Consulting Inc. (FMR) is a small firm with a public sector focus that is based in the Washington DC metro area and has a solid and growing track record with our federal clients. Its key personnel have more than 50 years combined experience in accounting and financial management, including 45 in the Federal government arena. FMR's work is conducted in accordance with applicable standards as established by FASAB, AICPA, ISACA, IEEE, etc. In addition to attestation, analysis, validation, evaluation, and IT skills, FMR professionals have academic and hands-on knowledge of budget formulation and execution requirements, the U.S. Standard General Ledger, the Treasury Financial Manual, the Statements of Federal Financial Accounting Standards and OMB guidance for form and content of agency financial statements. Its professionals also have working knowledge of applicable federal laws, rules, and regulations, including the CFO Act, GPRA, FFMIA, Credit Reform Act, Anti Deficiency Act, FMFIA, and the CMIA.

Clients include U.S. Department of Education and Commodity Futures Trading Commission (CFTC), both of which FMR has assisted towards improved and stable financial reporting processes. Other clients include the U.S. Small Business Administration (SBA), U.S. Coast Guards and the U.S. House of Representatives.

The firm's management is justifiably proud of FMR's reputation for partnering effectively with all levels of client personnel to deliver measurable results that are aligned to established goals. FMR maintains strategic relationships with national and local firms that enable it to offer a solid base of professionals with a variety of skill sets in a wide range of accounting and complementary financial management/systems competencies.

Our Service Offerings Include:

- Financial statement preparation and audit support services
- Account analysis and reconciliation services
- Development and documentation of policies and procedures
- Compliance audits
- FMFIA reviews
- Internal control reviews
- Design and implementation of internal control processes and procedures
- Data analytics
- Accounting policies and procedures documentation
- System development projects
- Development and testing of financial reporting and reconciliation tools
- Systems analysis and testing
- Systems implementation and related quality assurance work
- System security reviews
- Financial management advisory services
- Training
- Independent Verification and Validation
- Data identification, retrieval, preparation, analysis, substantiating, logging and archiving of audit evidential matter (PBC items)
